Directors' Report to the shareholders

For the Quarter & Half Year Ended June 30, 2013

The Directors are pleased to present their review together with the un-audited financial statements of the Company for the quarter and half year ended June 30, 2013.

Your Company remained committed to the high standards of Health, Safety, Environment and Quality. There was no reportable major injury during the period and the Company complied with the health and environment regulatory requirements.

Net sales income for the quarter and half year at Rs 3.1b and Rs 5.6b were higher by 19% and 11% respectively compared to the corresponding period last year on the back of higher volumes and prices.

Continuous increase in the feedstock prices coupled with the depreciation in Pak Rupee value against major currencies has resulted in a decline in the gross profit margins, despite better prices. The law and order situation, power and energy outages and general economic conditions significantly restricted the capacity to completely pass on the cost push to the downstream industry. In addition, the increase in depreciation charge relating to new BOPP Line 4 has also contributed towards lower gross profit which will be fully recovered with the gradual escalation in its operational capacity.

Finance cost for the quarter and half year were higher by Rs 130m and Rs 168m respectively compared to same period last year primarily on account of higher borrowings in line with the expansion plans. Consequently, profit after tax for quarter and half year at Rs 125m and Rs 238m was lower by 26% and 30% respectively compared to the corresponding period last year.

	Six months ended June 30	
	2013	2012
Net Sales Revenue (Rs in M)	5,644	5,070
Profit Before Tax (Rs in M)	312	516
Profit After Tax (Rs in M)	238	338
Earnings per share (Rs)	7.93	11.28

Expansion in BOPP production capacity was successfully achieved through commissioning of BOPP Line 4 in March 2013. Operational efficiency shall be optimized gradually in line with supplier's specifications.

Work on new CPP Line 2 for increasing the production capacity is progressing as per plan and the project is expected to be commissioned in Q4 2013.

Future Outlook

Deteriorating law & order and energy supply situation affecting the downstream demand is expected to keep the margins and volumes under pressure in short to mid-term.

On behalf of the Board, we would like to place on record our appreciation for the continuous support and commitment shown by all the staff and stakeholders towards Company's successful operations.

For and on behalf of the Board

Shahid Hussain
Chief Executive

Auditors' Report

To the Members on Review of Interim Financial Information

Introduction

We have reviewed the annexed condensed interim balance sheet of Tri-pack Films Limited (the Company) as at June 30, 2013 and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim statement of changes in equity, condensed interim cash flow statement together with the notes forming part thereof for the six months period then ended (here-in-after referred to as the 'interim financial information'). Management is responsible for the preparation and presentation of the interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this interim financial information based on our review. The figures included in the condensed interim profit and loss account and condensed interim statement of comprehensive income for the quarters ended June 30, 2013 and 2012 and the notes forming part thereof have not been reviewed as we are required to review only the cumulative figures for the six months period ended June 30, 2013.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of the interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the annexed interim financial information as of and for the six months period ended June 30, 2013 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.

Notes to and Forming Part of the Financial Statements

For the six months period ended June 30, 2013 (Un-audited - note 2)

- (a) The standard requires past service cost to be recognised immediately in profit or loss;
- (b) The standard replaces the interest cost on the defined benefit obligation and the expected return on plan assets with a net interest cost based on the net defined benefit asset or liability and the discount rate, measured at the beginning of the year;
- (c) There is a new term "remeasurements". This is made up of actuarial gains and losses, the difference between actual investment returns and the return implied by the net interest cost; and
- (d) The amendment requires an entity to recognise remeasurements immediately in 'other comprehensive income'. Actuarial gains or losses beyond corridor limits were previously amortised over the expected future service of the employees.
